

CLEVELAND AWESOME TRIVIA

HOW TO PLAY THE GAME

THE QUICK GUIDE: The game consists of 6 rounds, 3 questions per round, with a halftime question and a final question. The host will read the categories for each question before the round starts. You will answer each question by handing in an answer slip with your answer, team name and the point value that you are wagering. If you sweep the round, there is bonus point(s) awarded for getting all of the questions within the round correct. You have 1 free pass you can use on any question #1-18, and the host will explain the Halftime and the Final Questions when they arrive.

▼▼ FURTHER EXPLANATION ▼▼

THE ANSWER SLIPS

At the end of each question, your team will hand an answer slip to the host with the following three things:

1. Your team name
2. Your points (either 2, 4 or 6)
3. Your answer

THE 2,4,6 POINT WAGERS

In each round there are 3 questions. There are also 3 point values that you will use in each round (2, 4 and 6).

Point values cannot be repeated in a round, so by the end of each round, you will have some combination of 2, 4 and 6 point answers.

THE FREE PASS

One time in the game (except on the Halftime and Final Questions), you can use a Free Pass. It works just like a regular answer, where you write your team name and points, but you write Free Pass as the answer and automatically get the points that you have wagered.

RULES & THINGS TO REMEMBER

- There is absolutely no use of cell phones (no texting, no phone calls) until after your team has turned in their answer.
- You do NOT lose any points for guessing incorrectly on an answer until the Final Question, so make sure that you guess at every question.
- There is no shouting of answers (whether you are joking about the answer or not), and all decisions of the host are final.
